Dear Mr Fenner

Thank you for your letter dated 6 October 2011. May I congratulate you on the excellent film which you have produced, "*More 4 Me*". I agree with Tim Costello's comments that the film points out, in a challenging and inspirational way, what real happiness in life is.

I am most grateful to you for having taken the trouble to send a copy of the film to me, together with the media kit, the latest press release and some press articles.

I am more than happy to endorse the film. Indeed, I am honoured to do so.

My very warm congratulations, and those of my wife Tonya, for what you are doing. You and the film's cinematographer, Andrew Hooper, are to be commended for making such a thought provoking, interesting and compassionate work.

Your action in donating 75% of the film's profits to a number of aid organisations, featured in the film, sets a great example of selflessness, and underscores the sincerity of the message which the film conveys.

I wish you every success in its further distribution, as it is a most important film, combining professionalism with a very strong message which is quite inspiring. Again, warm and sincere congratulations, and thank you very much for sending this material to me.

Yours sincerely

GOVERNOR
